Building the future is in our nature

Sustainability isn't just a concept, it's our commitment to a brighter and more responsible future. We understand the vital significance of preserving our planet, supporting our people, and fostering innovation in our business practices. We believe that these three pillars - Business & Innovation, People, and Planet - are interconnected and essential for a thriving future.

Join us on our journey as we strive to make every action count, every choice eco-conscious, and every day a step closer to a world we can all be proud of.

BUSINESS & INNOVATION

Develop reliable products to drive sustainable growth, powered by efficiency, innovation, and a conscientious supply chain.

PEOPLE

Foster a compassionate, diverse, and stimulating work environment for our employees, maintain strong and transparent relationships with our suppliers, and actively contribute to the development of an inclusive society in our community.

PLANET

Steer and oversee our operations with a strong focus on low carbon footprint and resource efficiency, championing conscientious consumption.

Partner with us in our mission as we believe that building the future is not just a goal, it's part of our nature.

HOW DO WE MAKE OUR PRODUCTS ACCOUNTABLE?

People and
Governance

Sedex Member

Product collection focused
on Sustainability

EUDR

We demonstrate our commitment to protecting forests by respecting the guidelines of the EU Deforestation Regulation (EUDR)

* Certified products are identified in the catalogue as FSC™.

Our materials

We believe that building a better future is part of our essence. With the reduction of environmental impact and the fight against climate change in mind, we present a range of products with more sustainable materials and made to withstand many uses.

RECYCLED ABS

ABS can be recycled twice as much as other plastics. Using rABS instead of virgin ABS contributes to maintaining resources and reducing the carbon footprint associated with the manufacture of virgin material.

RECYCLED STAINLESS STEEL

Material produced from industrial steel waste, contributing to the preservation of natural resources and the reduction of carbon emissions from metal extraction.

RECYCLED ALUMINIUM

Aluminum is a 100% recyclable material and can be recycled infinitely while maintaining its properties. It contributes to the preservation of water resources and it is estimated that recycling 1 ton consumes only 5% of the energy needed to produce the same amount of virgin aluminum.

SUGARCANE PAPER

Material that gives new life to sugar cane fibers, proving to be a creative alternative to traditional paper.

CORK

Plant-based material from the cyclical extraction of cork oak bark, promoting the growth and health of the tree. This is a renewable natural material, in addition to its well-known resistance and impermeability, it is recyclable and 100% biodegradable. The use of this material contributes to reducing Global Warming Potential, since for every ton of cork produced, up to 73 tons of CO₂ can be retained.

RECYCLED FELT

Versatile and soft material, produced by recycling PET with all the advantages of recycling this material

RECYCLED COTTON

Cotton is the most widely used natural fiber in the world. By recycling the waste generated in the textile industry, as well as post-consumer items, it is possible to reduce the amount of waste generated in landfills. The production of these fibers through recycling reduces the amount of water consumed in the process and reduces the use of agrochemicals and water in the agricultural production of this plant.

ORGANIC COTTON

Cotton from controlled organic farming, without the use of chemicals or artificial fertilizers, promoting the maintenance of biodiversity and water resources. Compared to intensive cultivation, there are significant reductions in water consumption and greenhouse gas emissions.

BAMBOO

Bamboo is a fast-growing, naturally renewable plant that doesn't need pesticides or fertilizers. Bamboo plays a fundamental role for the atmosphere, as it can absorb large quantities of CO₂ and produce around 35% more oxygen than trees.

JUTE

A natural and vegetable textile material that grows quickly, it is produced without the use of pesticides or fertilizers, making it a less aggressive material for the environment. Traditionally used for items such as ropes, it is known for its strength and durability.

JUCO

Made from a mixture of jute and cotton, two natural materials, it results in a soft and comfortable knitted fabric that can be customized with various printing techniques.

ACACIA WOOD

Producing wood in accordance with FSC™ standards guarantees responsible management of the entire chain, from the forest to the end product, with environmental, social and economic benefits.

RECYCLED MILK CARTONS

Reusing aluminum and cardboard from used milk cartons to create new products.

RECYCLED PU

Resistant and flexible, it maintains the quality of conventional polyurethane, promoting the reuse of industrial waste and reducing the pressure on landfills.

rPET

Produced from recycled PET, rPET is a viable alternative to single-use plastic. The production of rPET consumes less energy and less water than the production of virgin PET. Recycling PET reduces the exploitation of non-renewable resources and the generation of waste in landfills, reducing the environmental impact of PET on the environment.

PAPER

Paper from responsibly managed forests, with environmental, social and economic benefits. FSC™ certification certifies the entire chain from the forest to the end product.

KRAFT PAPER

This paper is widely used in packaging for its durability and strength. More sustainable than ordinary paper, it is produced from the wood of any type of tree and does not involve bleaching with chemical agents, unlike ordinary paper.

RECYCLED PAPER

Paper produced from industrial waste or post-consumer paper. The production of recycled paper uses less energy, less water and fewer chemicals than the production of virgin paper. The reuse of this material means less waste is generated in landfills and promotes the preservation of natural resources by reducing the pressure on forestry.

Technology

Products that combine innovation and utility to optimise every moment of your day.

Burton 97179

Wireless earphones made from recycled ABS (100% rABS), with BT v5.3 transmission and a charging case with a 300 mAh battery, offering an autonomy of approximately 12h. The earphones allow you to answer calls, control the volume and playlist on your mobile device. Includes a USB-C charging cable. Supplied in a kraft paper gift box.

59 x 51 x 26 mm | Case: 75 x 90 x 37 mm

PDP

Cauby 97181

Wireless earphones made from recycled ABS (100% rABS), with BT v5.4 transmission and active noise cancellation (ANC), so you can concentrate on the main tasks of your day or relax listening to your favourite music without external noise. The charging case has a digital display that shows the charge level and has a capacity of 500 mAh, offering an autonomy of approximately 7 hours. The earphones allow you to answer calls, control the volume and playlist on your mobile device. Includes a USB-C charging cable. Supplied in a kraft paper gift box.

60 x 47 x 25 mm | Case: 62 x 32 x 74 mm

PDP

Autonomy of approximately 10h

106

Cobain 97193

Wireless earphones made from recycled ABS (100% rABS) and a bamboo case with a lid, with BT v5.3 transmission. The charging case has a 300 mAh battery that allows you to charge the earphones approximately 3 times on a single charge, offering an autonomy of approximately 5 hours. The earphones allow you to answer calls, control the volume and playlist on your mobile device. Includes a USB-C charging cable made from TPE recycled (100% rTPE). Supplied in a kraft paper gift box.

48 x 26 x 47 mm

PDP, DUV, LSR

106

Caetano 97188

Wireless earphones made from recycled ABS (100% rABS), with BT v5.4 transmission. The charging case has a digital display that shows the charge level and has a capacity of 200 mAh, offering an autonomy of approximately 4 hours. The earphones allow you to answer calls, control the volume and playlist on your mobile device. Includes a USB-C charging cable. Supplied in a kraft paper gift box.

61 x 49 x 29 mm | Box: 62 x 32 x 74 mm

PDP

Hendrix 97426

 Foldable wireless headphones made from recycled ABS (100% rABS). They work with BT v5.4 transmission, have a micro SD card reader and a 3.5mm AUX jack input, which allows you to use the headphones via an audio cable, even when the battery is flat. The battery has a capacity of 300 mAh, which provides an autonomy of approximately 20 hours. The built-in microphone and buttons on the headphones allow you to answer calls, control the volume and playlist on your mobile device. Includes a USB-C charging cable and a 3.5mm audio cable. Supplied in a kraft paper gift box.

📏 163 x 90 x 203 mm | Box: 181 x 71 x 151 mm

🔌 **TRS**, TXP, PDP, DUV, TRD

Headset with ANC

Active noise cancellation allows you to work without distraction.

Supplied in a pouch

Bettencourt 97138

 Foldable wireless headphones in recycled ABS (100% rABS) with BT v5.3 transmission with active noise cancellation (ANC), so you can concentrate on the main tasks of your day or relax listening to your favourite music without external noise. The battery has a capacity of 400 mAh, giving you a battery life of approximately 15h. The 3.5 mm AUX jack allows you to use the headphones via audio cable, even when the battery is flat. The built-in microphone and buttons on the headphones allow you to answer calls, control the volume and playlist on your mobile device. Includes a USB-C charging cable and a 3.5mm audio cable. Supplied in a pouch in a kraft paper box.

📏 Flap: 300 x 200 mm

Recycled ABS speaker

Water resistant
IPX7

Fully customizable grille

Sheeran 97140

Portable speaker made from recycled ABS (100% rABS), waterproof to IPX7, making it the ideal solution for outdoor use. With BT v5.0 wireless transmission, it has a micro SD card reader, USB-A input and 3.5mm auxiliary input. With 10W of sound power and a battery capacity of 1,200 mAh, it has an autonomy of approximately 9 hours. Thanks to the built-in microphone, you can answer calls and control the volume and playlist of your mobile device. The grille can be fully customised. Includes a USB-C charging cable. Supplied in a kraft paper gift box.

170 x 75 x 50 mm

103

106

Turing 97097

Recycled ABS (100% rABS) portable speaker with outdoor LED strip, with BT 5.0 transmission. It has a power of 3W (4Ω) and autonomy of up to 4 hours. It also has the function to answer calls and connect to the playlist of the mobile device. Supplied in a kraft paper gift box.

Ø55 x 63 mm

PDP

The balance between technological innovation and the naturalness of bamboo

Guetta 97183

Portable speaker made from bamboo and recycled PET (100% rPET) with a super-fast wireless charger on the top. With BT 5.3 wireless transmission and wireless charging with a maximum power of 15W, it allows for super-fast charging. With 5W of sound power and a 1,200 mAh battery, it has an autonomy of approximately 2 hours. Compatible with mobile devices with wireless charging technology. Includes a USB-C charging cable. Supplied in a kraft paper gift box.

120 x 100 x 60 mm | Box: 124 x 114 x 64 mm

PDP, LSR

Fully customizable grille

Re-Glashow 97441

Portable speaker made from recycled ABS (100% rABS). With BT 5.3 wireless transmission, it has a microSD card reader, 3.5mm AUX output and automatic playback via the USB-A port. Its 3W sound power and 400 mAh battery give it an approximate battery life of 4h30. It allows you to answer calls thanks to the built-in microphone, control the volume and playlist of your mobile device. Includes a USB-C charging cable. Supplied in a recycled kraft paper gift box, which can be reused as a smartphone holder.
